

Submitter: Stephen Nelson

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3362

As a senior Oregon citizen, the ever-increasing taxes on consumer items in this state are becoming impossible to accept. I live too far from town to walk and must rely on vehicular transportation. In case you politicians are too removed from reality to understand, cars require new tires regularly. If this constant taxation continues, I will be forced to leave a state I love and you can go pound sand for your revenue.
