

Submitter: Larry Sipe

On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure, Appointment or Topic: SB88

Dear Senate Committee on Energy & Environment:

I respectfully request that you SUPPORT SB 88. Get the junk out of rates. Oregonians are faced with skyrocketing utility bills which many cannot afford. Profit-driven, monopolistic utilities must pay their fair share. They must be held accountable to pay for: advertising, industry association, legal and lobbying. For-profit utility companies need to be responsible to cover these out-of-pocket expenses, not customers. This bill supports the people of Oregon and stops this "benefit" for corporate interests. Remove millions of dollars of "junk" from utility rates and truly benefit customers.

I implore you to benefit the people of Oregon and SUPPORT SB 88. Truly benefit customers and hold corporate utilities responsible for their own expenditures. Get the junk out of rates.

I respectfully request that you SUPPORT SB 88.

With gratitude,  
Larry Sipe  
Salem, Oregon
