

Submitter: Roberta Pitman

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3362

I am a senior citizen living on a fixed income. It is very hard to make ends meet. I have worked all of my life and didn't retire until I was 72. I have always paid my own way, did without things I couldn't afford and have never been on any kind of assistance. With the rising costs of everything it is very difficult to live a comfortable life. Essentials like electricity have become horribly expensive. I don't know where the money is supposed to go from this tax on tires goes but I think it is time to stop new taxes. I have always had to live on a budget and I think it is beyond time for government to also have to figure out finances. Please do not support any new taxes.
