

Submitter: Larry Sipe

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB3081

Dear House Committee on Climate, Energy & Environment:

I respectfully request you SUPPORT HB 3081. Stand for the people of Oregon. There are many incentives and rebates for making homes, buildings and appliances healthier, more energy efficient and more resilient in the face of hazardous conditions. These programs are scattered among various government agencies and private sector partners, with complex rules requirements. HB3081 provides a single source for finding information and assistance in navigating these programs.

I implore you to SUPPORT HB 3081. Stand up for Oregonians. HB 3081 brings energy efficiency and affordability of utilities costs, homes, and buildings within reach for all Oregonians.

I respectfully request you SUPPORT HB 3081.

With gratitude,
Larry Sipe
Salem, Oregon
