On Behalf Of:

Committee: House Committee On Early Childhood and Human Services

Measure, Appointment or Topic: HB3497

As a millennial, I want to make sure our housing, healthcare and caregiving systems are running smoothly to serve ALL Oregonians. My generation cares about our aging population now, and we will continue to care as we age into needing those services ourselves. We need to work together and help Oregon build a plan on aging. I am behind HB 3497, so our future is secure, and so we are prepared to care for Oregonians of all ages. Don't let us get left behind as dozens of other states create their plans on aging. Get this task force started.
