

Submitter: Brad Barcroft

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3362

Increased taxation on tires to fund additional programs is a underhanded way to further increase the burden on Oregon Tax payers. Increased taxation should be voted on by the people paying the tax not elected bureaucrats who already let millions of taxpayer dollars get squandered by governmental pet programs and grants. We need increased visibility to the taxpayer on what our hard earned money is being spent on so that we are able to understand the decisions that are being made before taxation is increased.
