On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3362

ODOT needs to learn how to balance their budget before they impose any more taxes. This wasn't a small accounting error. It was 1.1 BILLION dollars!! And if they are going to pass a new tax on tires the money should go to directly toward improving the highways, not mass transit and environmental projects. Mass transit only serves a small percentage of Oregon residents.
