

Submitter: Monique Bochsler

On Behalf Of:

Committee: House Committee On Agriculture, Land Use, Natural
Resources, and Water

Measure, Appointment or Topic: HB3103

To whom it may concern,

My name is Monique Nochsler and I support HB3103.

This legislation promotes effective governance by mandating the state forester to set and publish sustainable harvesting levels for state forests, create an updated timber inventory model to monitor forest health and inform responsible management, and ensure that timber sales benefit communities reliant on the timber industry. Importantly, it does not increase harvesting on state lands; rather, it offers local businesses that rely on state timber a reliable framework for future planning. In essence, it requires the state to communicate its harvesting intentions clearly and follow through on those commitments. Thank you for considering my viewpoint on this matter.
