

Submitter: Nancy O'Brien

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3362

Thank you for receiving my testimony on House Bill 3362.

I oppose this bill on tax on tires.

A far greater environment pollution comes from places where at any stage of development pre-born babies will die. Then, at some point in time, the hazard waste truck driver comes to pick up the pollution hazard, and said pollution will continue to harm the environment.
