Committee: Senate Committee On Education

Measure, Appointment or Topic: SB1098

As a teacher librarian and parent, I feel strongly that the books in our schools must represent the diversity of our students. I want my own children to be able to find material in their school libraries that represents their lived experience. I want that to be true for all students in all schools. There is no one way to be in the world and our libraries must reflect that. I whole heartedly support SB 1098.
