

Submitter: Larry Morrison
On Behalf Of: Morrison Trucking
Committee: Joint Committee On Transportation
Measure, Appointment or Topic: HB3362

Not only am I totally against imposing a tax on top of current cost of disposing of tires is redundant. Our family business has been serving Oregon over 75 years, from building logging roads, paving I-5 when it was built and help dig the 405 trench through Portland, in all these years we've never had the stupidest forums of taxes imposed on Oregon taxpayers. Your money crabbing taxes to support your ever whims of feel good politics. Do you understand the citizens are finely broke, cut the stupid spending.
