This is an addition to the testimony I sent the other day in opposition to HB 3362. A reminder that we Oregonians have defeated "Sales Tax" over and over and over again and to present a bill which adds a "sales tax" to an individual product is a real slap in the face to the voters of Oregon.

Not only a slap in the face, but a bill that has very little substance. First the money will not be used for a program that is vital to Oregon. In fact it appears the money will be going to a program that Oregonians do not really support and is not really practical for our state. Second putting money toward an "untested" program is just throwing money down the drain and we cannot afford to do that.

Oregon's economy is already sketchy at best and raising more taxes is not going to help any business to survive.
