

Submitter: Galloway Copeland

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3362

As a single truck owner and resident of the state of Oregon. I oppose this purposed bill! The state of Oregon is becoming more anti small business and ever more burdensome to live in due to its ever increasing taxes and regulations.the archaic and out dated ton mile tax take in a very large amount revenue that should be going to our roads,but due to an ever growing buarcrcy less of it finds its way to the intended purpose. I am also not alone in the belief that every citizen of the state should be funding public transportation when it does not benefit all citizens. These pet projects should be paid for by the citizens. ODOT needs to balance their budget as well as the state!!
