Measure, Appointment or Topic: HB3362

I simply CANNOT afford another tax!
PERIOD!

There is no reason to tax tires to support an underused light rail especially when the cost of the the light rail is the HIGHEST in the country (maybe the (world)).

Wouldn't it make more sense to find out where the money is going to build light rail at this wasteful cost before dumping buckets more money into it?

Why not ASK the citizens if they want to impose this tax on themselves before doing it without consent?

In a nutshell, hard NO from this CITIZEN!

Quit making it harder to live in Oregon via ever higher taxes and fees.
