

Submitter: JONETTE FLYNN

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3362

NO on HB 3362 is just another burden to already struggling Oregonians. Tires are a very costly necessity; it is already a struggle to purchase new tires and putting a tax on the purchase of tires will just encourage more people to put off replacing their tires and create dangerous driving conditions. Oregon is one of the most taxed states in the country. If we are worried about the environment lets manage the forests and prevent forest fires which is much worse for the environment.
