

Submitter: Steve Misemer

On Behalf Of:

Committee: Senate Committee On Labor and Business

Measure, Appointment or Topic: SB916

why would we even consider supporting or introducing a measure like this? I was part of a union many years ago. And there were threats to strike. I understood then that if we did go on strike there was a price to pay during the strike no income. I mean how many jobs out there can you leave for an extended period of time and get paid? I mean if there is sign me up. Other wise don't waste time and money.
