

Submitter: Tiffany Grantom

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3362

I am a small business owner and a taxpayer in Eugene. Oregon lawmakers continue to find more and more ways to spend unwisely. We know from the education outcomes in our state (just one example) that more money spent does not mean better outcomes. So no, I do not support taxes on tires. Stop wasting our money on nonsense "green" initiatives that cost more and do less, and make better use of the monies already collected.
