

Submitter: Steve Rundell
On Behalf Of: Papa's Shop
Committee: Joint Committee On Transportation
Measure, Appointment or Topic: HB3362

This bill would add an additional hardship on small businesses such as mine. I am a small motorcycle repair shop and replacing tires is a good part of my business this HB 3362 would cause additional bookkeeping and expense to my already small profit margin.

I urge the Committee on Transportation to kill this bill.
