Dear Committee members.

One of the unique features that sets Oregon aside is our forest - State and federal. These wonderful tracts provide us - Yes, with wood/products, but also fresh air, carbon sequestration, recreation, wildlife, hunting opportunities, and sheer beauty (for residents and tourists alike). It is essential that Oregon PROTECT its forests - by working to fully balance its multiple values, especially through assuring harvests based on science-based evidence of SUSTAINABILITY.

Thank You for your good work to product this wonderful Oregon resource .

Sincerely,
William Dalton
