SB1098

I tried to read the proposed text of SB 1098. What a bunch of crap.

Why do we have elected school boards if the legislature is going to micromanage everything. As a taxpayer and voter I expect my elected school board members to represent me in the school districts. You are politicizing and polarizing everything.

Anyway I think it is a board decision not a legislative decision and I am opposed to this bill. I am asking for a vote of NO on this bill.
