

Submitter: Bryce Korish
On Behalf Of:
Committee: Joint Committee On Transportation
Measure, Appointment or Topic: HB3362

I strongly oppose any new taxes on Oregonians, let alone a hidden sales tax. This is bad policy that will hurt the hard-working families of this state. New taxes for "rail transit" programs and a "tire pollution program" is a joke. The State has shown an extraordinary inept ability to run the current rail transit programs in place and should not be allowed to allocate new funds to hypothetical rail transit projects until they can show annual successes of the current rail systems in place. There is absolutely no reason to direct more of our tax dollars to programs that show ongoing losses and benefit very few people.
