

Submitter: John Beitel

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3362

No more taxes! If you tax tires, they should pay to fix roads, not for some Portland transit project. As a farmer we use more tires than most people. Why should we pay for some project in the city. If you think it's necessary, pay for it yourself. Oregon ranks near the top for getting taxed but all you want to do is raise them. Please vote no!
