Is this someone carving out a personal fiefdom? I believe the exceptions under ORS 215.283 should be limited to 1. those related to processing resources taken from the (local) land, 2. personal dwellings and 3. government related dwellings. I would actually want to advocate for removing some of the exceptions listed in SB788 that are already there. These operations can be put on less valuable land where they can be treated and taxed as the commercial property that they are.
