The proposed tax is not something the public needs. We need crumbling roads fixed, better travel time on our roads from home to work. The Excise tax on tires would be used on Rail Transit and tire pollution projects, at the expense of the average citizen just wanting to buy tires for his or hers car. Tires are already too expensive for the average person. 4 tires on most cars cost from \$750.00 to \$1000.00. The extra expense to the consumer is unwarranted. I oppose this tax and hope that you will oppose it also. Thanks for your time
