

Submitter: Jeff Myers

On Behalf Of:

Committee: House Committee On Education

Measure, Appointment or Topic: HB3038

Representatives, I urge you to drop any support for HB 3038 until Sections 1 through 7 and Sections 13 through 15 are removed. The Governor is attempting to push through unnecessary changes that will further harm our students and our schools by "marrying" them to a legitimate ask for support students with disabilities (the contents of Sections 8 through 12).

We need to stop funneling public education money to non-profits that essentially do nothing and are never held accountable. The grift needs to end, and this is just one of many bills that need to be stopped in their tracks so we can begin to restore the public education system we all once were proud of here.

My door is always open for conversation, so please feel free to reach out for a deeper analysis of this or other questionable & problematic bills.

Thank you,  
Jeff Myers
