

Submitter: Luke Zedwick

On Behalf Of:

Committee: Senate Committee On Education

Measure, Appointment or Topic: SB1098

The role of school boards has been under attack for some time, with the result being that more and more power is being taken from small communities and put into the hands of bureaucrats who don't understand anything but their ideological agenda. As someone with a 25 year career in education, I believe this bill will harm students.
