Oregonians are being over taxed. Taxes on property, income & numerous business taxes keep going up & have become a burden on low income & middle-class citizens. We cannot afford this unnecessary tax. The bill states that a new government department will be added which means that the money raised by this tax will first go to supporting the offices & employees. What ever money is left over will go to rail transit, wildlife-vehicle collision & then to tire pollution. Nothing is said how this money is to be used to prevent tire pollution. This is a ridiculous tax meant to harm small businesses & taxpayers. Oregon has the 10th highest taxes & has wasted or lost millions of dollars due to negligence, poor bookkeeping or plain malfeasance. I urge you to vote NO on HB 3362. This is not responsible government.
