

Submitter: Ronald Willis
On Behalf Of: Fellow Tax payers
Committee: Joint Committee On Transportation
Measure, Appointment or Topic: HB3362

Really? More hidden taxes to fund light rail? As a former Tri-Met employee, I know that public transit is nothing more than a black hole in which to waste money for the failure which is Tri-Met, under whatever name you may call it. C'mon, you're legislating against the will of the people for your utopian dream of banning gas-powered cars. Oregon has become a laughingstock because of your (R & D) extreme social platforms.
