

Submitter: John Tish

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3362

HB 3362 is bad for Oregon. Not only will it raise the price of tires, at a time when tire prices have skyrocketed, this state wide tax will not go back state wide, but to a rail project in the Portland area. Metro has already proven how incompetent they are when it comes to managing rail dollars. Please don't hand them more money from all over the state, to be wasted away.
