I oppose assisted suicide. It is whitewashed murder. Therefore, I propose (contend, believe, encourage) this bill be scraped in its entirety. My intent is that assisted suicide would no longer be allowed in Oregon. I don't have the time to check on the numbering of the bill this item purports to modify. If the original bill was numbered differently, I submit that it --by whatever appropriate number--be voided. Murder is not healthcare (that applies to abortion as well). I would like to believe that those who made the effort to study the human body, diseases, therapies, etc., are compassionate and intelligent enough to render palliative care in a kind and empathetic manner making a person's natural death occur in comfort but not with 'assistance'.
