

Submitter: Kathleen Callaway

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3362

To the Oregon legislature,

The sales tax on tires is very high and would be a burden to a large number of Oregonians. Having to buy new tires for most people is a huge expense. It would cause some families to delay buying tires, which would cause more bald tires on vehicles and increase danger.

In addition, the money would not be spent on the roads or road maintenance. Please do not pass this bill.

Sincerely, Kathleen Callaway
