

Submitter: Gary Weis
On Behalf Of: Self
Committee: Joint Committee On Transportation
Measure, Appointment or Topic: HB3362

HB 3362 is a SALES TAX on tires. It doesn't matter that you CALL it an excise tax, it isn't. An excise tax is levied against a quantity such as a gallon of gasoline, a pack of cigarettes or a phone line. This sales tax is levied as a percentage of the sale PRICE. Which means if I buy a cheap tire from Les Schwab I pay less than if I buy an expensive tire. If this were a true excise tax the tax would be the same per tire!

The people who are truly hurt here are the poor, do you care?

Vote no on this sales tax!
