

Submitter: Connie Norman

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3362

This would be a very foolish move. With inflation already stressing out our budgets, this additional and unnecessary increase in the taxpayers dollars would not serve an appropriate useage and would most likely cause people who may need to replace their tires to hold off on doing so, which could become a safety hazard on the road. Driving with poor tires that need to be replaced is not wise, so you would just be putting a further burden on the public. Please do not pass this bill
