Committee: Senate Committee On Education
Measure, Appointment or Topic: SB1098
Education committee

In 2023 a Bill to protect porn in schools was met with 4 ladies and 200 fliers of porn found in a school library.

Funny thing was one of the ladies showed the pictures to OSP officer in the capitol and asked "would I be arrested if I showed this to a kid".

Officer said yes... I would arrest you if I seen you show that to a kid.

Legislators threw the flyers in the trash... some pretty mad because someone put the porn in the legislative offices (this should speak volumes).

I am more offended that your committee would give short notice of todays hearing on SB 1098... shows a disrespect to the citizens in the process.

When you pass the Bill we will see to it that librarys get books explaining how to gut a animal... and hey how about how to make pipe bombs (would that be acceptable too).

I have to wonder how many laws will be violated, should this Bill allow Kids access to porn.
