On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3362

This citizen opposes HB 3362. Too many taxes already. For far too long "We the People" have been taxed far too much. Our living wages are Unconstitutionally taxed already.

Always adding new financial burdens upon the backs of the people must end. How about prudently using the monies already collected and be thrifty with the peoples money.

It always seems that when it comes to government, there is little to none accountability, while monies fantastically disappear and or are mismanaged. This citizen also finds it reprehensible that the current administration uses the peoples monies to support illegal aliens, maybe if you people used OUR money more responsibly there would be no need to burden the people with another tax or financial burden.

Democrats always just want to spend, spend, spend. How about just No. I oppose any new taxes or financial burdens and any other unlawful unconstitutional abrogations.

Nothing like a De-facto administration trying to always bilk the people....

Sincerely,
Douglas Wilbur
