We must help protect our seniors, especially in their time of need. When they have made a choice to enter a CCRC knowing they will have the help they need, and then to strip that from them is unacceptable.

We must support residents of CCRC's in what they contract for. Their contractual expectations set when they initially decide on a long-term living arrangement / solution, should be honored. Seniors make life choices in living placement, and to have promises changed is unfair and unacceptable.

I urge a yes vote on this bill, and a YES to helping our seniors get the care they signed up for and were promised upon entering CCRC's.

In their time of need, it is more important than ever to make sure they get the care they initially were promised. At a very minimum, CCRC's must provide a seamless care solutions for their residents, and those must be communicated and easily accessible.

A yes vote on this bill is the only fair and just way to vote.

Thank you.
