

Submitter: Carol Kracht

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3362

With the economy tanking, prices for necessities now going higher and higher with this new administration, government employees being fired, services being cut, Social Security at risk, tariff wars going on, now is NOT the time to impose another financial hardship on people by putting a tax on tires which are a necessity. I strongly oppose this bill HB 3362. Thank you for your consideration.
