

Submitter: Suzanne Moore

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB3546

If big businesses and data centers want to land in Oregon then they need to pay their share of the costs. Data centers do not provide many jobs and just suck electricity from those who need it the most. If they want to be here then make them pay their expenses. These are the richest companies in the world, built on the backs of Americans.
