

Submitter: David Hurley

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3362

Why? Oregonians have again and again said no to sales taxes. And what is this but a sales tax? Here in rural Oregon where many of our roads are gravel and dirt, we generally purchase more expensive tires which can stand up to the conditions we face and, even so, often have to replace tires because of the wear and tear our tires take. This is a sales tax that will hit our town and our county particularly hard. Please say no to another sales tax proposal.
