Measure, Appointment or Topic: SB88

I support passage of SB 88. It is not appropriate for investor owned utilities to pass on advertising, lobbying, contributions, attorney fees and especially fines to their consumers. Consumers do not have a choice of service provider. We have to accept the power company that serves our location whether or not we agree with their advertising approach and content and whether or not we agree with their political position.

As consumers we depend on the PUC to monitor these investor owned utilities and it is reasonable for them to hold the utilities accountable for not price gouging customers.

Please support SB 88
