

Submitter: Ritch Hanneman

On Behalf Of:

Committee: House Committee On Rules

Measure, Appointment or Topic: HB3012

So this bill will allow the children that are not understanding the full impact of a decision they make. To decide the future of a school district. So that means this bill will

help self destruct the government school system. Causing our state to have even lower graduation requirements and make our state look and act even worst than it already

does. Or is this a way to blame the children for how bad the government school system is now . Rather than the blame the right people .
