

Submitter: Alta Lynch

On Behalf Of:

Committee: Senate Committee On Education

Measure, Appointment or Topic: SB1098

I OPPOSE SB 1098. My interpretation is this bill would prevent parents and School Boards from finding what is best for the children in their communities. It would be wrong to

take this decision making away from both Parents and School Boards.

Parents and School Boards should be able to deem what is appropriate for children. Slowly, Parents are becoming more aware of what their children have access to and should be

in the decision-making process in their respective communities.

Vote NO on SB 1098.
