## Proposed Revised Rules & Regulations

November 18, 2022

Unfortunately, the number of ballots cast, 206, did not reach the required vote Quorum of 266. As a result, the election for Revised Rules & Regulations cannot be certified and thus was not counted for approval or denial.

The current Rules & Regulations will remain in force as is with no changes.

The need for Rules and Regulations changes will be re-visited at Board of Directors discretion and the community will be kept informed of any decisions on this matter.

Respectfully submitted.

Robert C. Noroña  
Secretary of the Board
