I am opposed to this new tax on tires as a farmer as i purchase several new tires each year for my many farm vehicles and it will increase my costs during a time our industry has suffered from the previous administration's war on fuel which has driven up of our costs for everything we purchase to run our farm, thus making it even harder to break even let alone make a profit. This is especially insulting as we will pay a new tax for tires that use Oregon's roadways but the revenue raised will not be used for the roads. Please vote no
