

Submitter: Lee Schondorf

On Behalf Of:

Committee: Senate Committee On Early Childhood and Behavioral Health

Measure, Appointment or Topic: SB702

Criminalize selling flavored smoking products (tobacco and vaping). I've seen in my town of Yoncalla children aged 10ish flavored vaping (I can hear them talking about the taste (cherry, grape...), absolutely disgraceful our elected leaders allow these products on the market. I can see in Roseburg and Yoncalla LLC (corporations small to corporate chains) with tobacco and vaping A signs outside of their buildings, I can see tobacco and vaping signs on utility poles, in their glass windows... Marketing cancer to children!
