Committee: Joint Committee On Transportation  
Measure, Appointment or Topic: HB3362

To Whom it may concern,

After hearing about HB 3362, I felt it necessary to share my opposition.

What this bill is attempting to accomplish is unnecessary, and has the need does not exist.

All this is doing is adding to the already high tax burden for Oregonians. Our local government should be pushing for operational efficiencies rather than pushing for additional tax revenue.
