

Submitter:

Rod Schilling

On Behalf Of:

Committee:

Senate Committee On Education

Measure, Appointment or Topic:

SB1098

Attempting to sneak this bill through the public comment process says a lot about the sickness behind it. Allowing dangerous information and illustration, pornography, and other age inappropriate materials into our libraries is unacceptable. Even realizing that morality or the lack there of is subjective, there are social norms that demand that certain materials not be available to underage children. You will be held accountable for the damage done, as this bill will surely cause harm in the long run.
