

Submitter: ANDREW HALL

On Behalf Of:

Committee: Senate Committee On Education

Measure, Appointment or Topic: SB1098

The way this was brought in leaving very little time for public comment should be all you need to know.

We do not live in a dictatorship, where public comment is not allowed. The fact that the legislatoras pushing this bill forward did so by severely limiting the timeframe for public comment is despicable.

Vote no for this bill, as your votes are being watched.
