Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB3081

Dear Chair Lively, Vice Chair Gamba, Vice Chair Levy, and Members of the Committee,

My name is Meagan Golec, and I live in Portland. I support House Bill 3081 “One Stop Shop 2.0” because it will make it easier for Oregonians to take advantage of rebates and incentives on home energy-efficiency upgrades.

I support HB 3081 because a few years ago my family decided to install solar panels on our home. Trying to figure out what rebates were available was very confusing. We decided to go ahead with solar installation without fully understanding the rebates, but I can imagine that many households would be unable or unwilling to undertake the up-front expense without knowing the available rebates. A one-stop shop to demystify available incentives would likely encourage more households to switch to more efficient ways to heat, cool, and power their homes.

Thank you for your support of House Bill 3081.

Sincerely,
Meagan Golec
