

Submitter: Richard Wisner

On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure, Appointment or Topic: SB215

04 February 2025

Senate Committee on Judiciary

Senate Bill 599

Dear Chair Senator Sollman, Vice-Chair Senator Brock Smith and members of the Committee:

If there was ever a piece of legislation that needs to be referred to the people for their approval or rejection at the next regular general election, this one fits the bill.

It is becoming more and more apparent that so-called 'green' energy produced through wind and solar is not going to provide enough energy for Oregon's growing demand. No one envisions that demand to decrease in the foreseeable future.

World-wide, nuclear energy has proved itself as a reliable energy source and it is time Oregon caught up with the 21st century in these matters.

Let us decide. Take this bill to Oregon voters.

Senate Bill 215 is a step in the right direction and worth passing.

Thank you,  
Richard Wisner
